

May 2024

Room 9

Dear Families,

Spring has sprung and we are nearing the end of the school year! As we try to absorb every moment of nice weather, please help your child be aware of what they need to enjoy recess: water bottle, hat, sunscreen, etc.

Sixth graders are busy writing their graduation speeches. They are reviewing math and geometry concepts and preparing to share their year-long island projects at graduation.

Fifth grade is finishing their summaries of the Iliad—this is a big work for them! They are also focusing on reviewing math and geometry concepts.

Fourth grade spent April working on poetry. This month they are working on descriptive writing and learning about ancient civilizations.

Third grade students have started to join our classroom for work time. As they work on their own assignments, they are preparing for their transition to upper elementary.

### May Birthdays:

Fiona Chabay May 1st  
Emma Hamling May 31st

### Summer birthdays (to celebrate this month):

Kai Careaga June 16th  
Koa Iupati August 4th  
Kellen Watts August 7th
